BENNY KAUFF CAN HAVE

JOB BACK IF REINSTATED New York, Dec. 30.—Benny Kauff, suspended outfielder of the New York Giants, can have his job back whenever the suspension imposed by Judge K. M. Landis, baseball commissioner, is lifted, counsel for the club told Supreme Court Justice Whitaker today at a hearing of Kauff's application for a permanent in-junction restraining Judge Landis and club officials from maintaining the ban

The club's counsel argued that no in-junction order should be issued against it inasmuch as it was merely obeying the commissioner's order. It was pointed out that the option clause in Kauff's last year's contract expired next Sunday and that if the ban was not lifted by that time, the club would have no further claim on Kauff, and Kauff had no claim. on the club unless a new contract were negotiated.

Counsel for Kauff, who was suspended following his indictment for alleged com-plicity in the sale of a stolen automo-bile, charged Judge Landis with "czarism" in continuing the ban after Kauff had been acquitted by a jury. The judge's attitude he declared, sonstituted an unfair "boycoit" that prevented Kauff from earning a lighte. rom earning a living.
Judge Whitaker reserved decision.

Rearish sentiment regarding the government report was based on contentions that the yield indicated for winter wheat would be 50,850,000 to 70,00,000 bushels more than as a rule had been looked for Figures purporting to show that the 1922 harvest would nevertheless be 67,000,000 bushels less than last year's total failed to check the downward swing of the market. Support for valties was poor, and with higuidating sales in progress the lowest level of the day was reached the lowest level of the try in the same shortly before announcement was made that a large firm on the bull side had suspended. Cessation of selling pressure followed, and in the brief intervals unti-the close a moderate rally took place helped semewhat by word that an agree ment had been signed for the shipment of \$10,000,000 of Russian gold to the United States to purchase food supplies. The action of the adjutant general's office in amending armory regulations and permitting their use for professional boxing and wrestling is reported to have been the cause of the change in plans. Boxing circles were alive with reports of plant to begin armory operations en an extensive scale. It is understood arrangements have been completed for the use of the Twenty-specond, Seventy-first and Twelfth, Regiment armories, and that application for licenses to the state athletic commission.

John Heydler, president of the National League, is counting on Ed Walsh, former Bridgeport manager, to make good as an umpire in the American League and says the entire baseball world will be pulling for the former spitball king to make a success of his new venture.

"Walsh has everything in his favor," says Heydler. He has public and ball players with him and you've got to have the experience as an umpire to know what that means.

"The average young umpire coming in must overcome a fot of hostillty in order to succeed. Ball players are ready to impose on him and the stands are unusually unfriendly and ready to criticize and find fault.

Walsh. At one time he and Mathewson stood in front among the pitcherof the game. He can command respect and prestige because of what he has done. If Walsh can keep his head when he gets into difficulties, he should make good in this new field."
